Turkish Native
English B2 - Upper Int.

ABOUT ME

Computer Programming sophomore at İzmir University of Economics and founder of Onysoft Veri Merkezi A.Ş. I run a Türkiye-focused AI gateway platform (api.onysoft.com) that provides access to 400+ AI models through a single OpenAI-compatible endpoint with TL billing. I work on server administration, ERP integrations, and PHP-based enterprise software development.

EXPERIENCE

Onysoft Veri Merkezi A.Ş.

May 2025 - Present

Founder & CEO

- Onysoft AI Gateway: OpenAI-compatible single API for 400+ AI models
- Netsis ERP integrations and customized enterprise software
- n8n workflow automation and RAG-based AI assistants
- Linux/Windows server administration with cPanel/Plesk hosting

Onyil Bilişim

2016 - 2025

Multi-disciplinary Technical Role

- Designed and managed 10+ corporate websites (PHP/MySQL)
- Computer assembly, maintenance, and hardware troubleshooting
- Developed custom business software and API integrations

PROJECTS

WawaHouse Baby E-Commerce • PHP 8, MySQL, Bootstrap 5

Modern e-commerce platform for baby clothing; admin panel, variants, coupon system.
GitHub: github.com/alierenonyil/onysoft-web

StarAvcısı E-Commerce • PHP, MySQL, PDO, JavaScript

Multi-category e-commerce platform; SEO-friendly URLs, virtual POS ready, CSRF/XSS protected.
GitHub: github.com/alierenonyil/onysoft-web-manuel

n8n Chatbot Project • n8n, JavaScript, REST API

Customizable AI chatbot platform built on n8n workflow engine for businesses.
GitHub: github.com/alierenonyil/n8n-chatbot-projesi

Onysoft AI Gateway Client • Python, PHP, JavaScript

OpenAI-compatible multi-language client examples for api.onysoft.com.
GitHub: github.com/alierenonyil/yapay-zeka-onysoft
